

Module name: Fundamentals of Signal Theory

Academic year: 2019/2020 Code: ZSDA-3-0031-s ECTS credits: 2

Faculty of: Szkoła Doktorska AGH

Field of study: Szkoła Doktorska AGH Specialty: —

Study level: Third-cycle studies Form and type of study: Full-time studies

Lecture language: English Profile of education: Academic (A) Semester: 0

Course homepage: —

Responsible teacher: dr hab. inż. Duda Krzysztof (kduda@agh.edu.pl)

Module summary

Signal theory is widely used in measurements and communication where the signals are acquired, processed, and analyzed. Most often continuous time signals are firstly sampled and quantized and next processed by digital computers. The lecture presents frequency representation of signals, sampling, and linear discrete time systems.

Description of learning outcomes for module

MLO code	Student after module completion has the knowledge/ knows how to/is able to	Connections with FLO	Method of learning outcomes verification (form of completion)
Social competence: is able to			
M_K001	Social competences to cooperate in teams working on signal theory.	SDA3A_K01, SDA3A_K03, SDA3A_W02, SDA3A_K02, SDA3A_W01	Activity during classes
Skills: he can			
M_U001	Skill to implement and apply signal theory.	SDA3A_U07, SDA3A_U06, SDA3A_U03, SDA3A_U02, SDA3A_U01	Activity during classes
M_U002	Skill to self study issues of signal theory.	SDA3A_U07, SDA3A_U03, SDA3A_U02, SDA3A_U01	Activity during classes
Knowledge: he knows and understands			
M_W001	Knowledge of fundamentals of signal theory.	SDA3A_W01	Activity during classes

Number of hours for each form of classes

Suma	Form of classes										
	Lectures	Auditorium classes	Laboratory classes	Project classes	Conversation seminar	Seminar classes	Practical classes	Fieldwork classes	Workshops	Prace kontrolne i przejściowe	Lektorat
15	15	0	0	0	0	0	0	0	0	0	0

FLO matrix in relation to forms of classes

MLO code	Student after module completion has the knowledge/ knows how to/is able to	Form of classes										
		Lectures	Auditorium classes	Laboratory classes	Project classes	Conversation seminar	Seminar classes	Practical classes	Fieldwork classes	Workshops	Prace kontrolne i przejściowe	Lektorat
Social competence: is able to												
M_K001	Social competences to cooperate in teams working on signal theory.	+	-	-	-	-	-	-	-	-	-	-
Skills: he can												
M_U001	Skill to implement and apply signal theory.	+	-	-	-	-	-	-	-	-	-	-
M_U002	Skill to self study issues of signal theory.	+	-	-	-	-	-	-	-	-	-	-
Knowledge: he knows and understands												
M_W001	Knowledge of fundamentals of signal theory.	+	-	-	-	-	-	-	-	-	-	-

Student workload (ECTS credits balance)

Student activity form	Student workload
Udział w zajęciach dydaktycznych/praktyka	15 h
Realization of independently performed tasks	35 h
Summary student workload	50 h
Module ECTS credits	2 ECTS

Additional information

Module content

Lectures

Subjects:

1. Fourier Transforms:
 - a) the Fourier Series,
 - b) the Fourier Transform,
 - c) the Discrete Time Fourier Transform,
 - d) the Discrete Fourier Transform.
2. Linear time invariant systems:
 - a) convolution integral,
 - b) The Laplace transform,
 - c) convolution sum,
 - d) The Z transform.
3. Periodic sampling of signals
 - a) Sampling theorem,
 - b) Multirate signal processing
 - c) Quadrature sampling

Teaching methods and techniques:

Lectures: Lecture with the projector and blackboard.

Warunki i sposób zaliczenia poszczególnych form zajęć, w tym zasady zaliczeń poprawkowych, a także warunki dopuszczenia do egzaminu:

The final pass is received based on lecture attendance.

In case of lack of the attendance students are asked to prepare the report on the subject they have missed.

Zasady udziału w poszczególnych zajęciach, ze wskazaniem, czy obecność studenta na zajęciach jest obowiązkowa:

Lectures:

- Attendance is mandatory: Yes
- Participation rules in classes: Attendance.

Method of calculating the final grade

The final grade is the pass of lectures.

Sposób i tryb wyrównywania zaległości powstałych wskutek nieobecności studenta na zajęciach:

In case of lack of the attendance students are asked to prepare the report on the subject they have missed.

Prerequisites and additional requirements

Master degree in electrical engineering.
